## The Geography of State Spending

**Glenn Hegar**

Texas Comptroller of Public Accounts

April 10, 2015

The Honorable Greg Abbott, Governor  
The Honorable Dan Patrick, Lieutenant Governor  
The Honorable Joseph R. Straus III, Speaker of the House  
Members of the 84th Legislature  
Members of the Legislative Budget Board

Ladies and Gentlemen:

We are pleased to announce the publication of *Texas State Expenditures by County, 2014*. Our office annually reports the state's expenditures by county for the previous fiscal year. This report assists more than 195 state agencies with required electronic reporting of state expenditures by county under Government Code, Chapter 2054.126 (d), Posting of Information on the Internet.

*Texas State Expenditures by County 2014* shows where nearly \$112.4 billion in state funds were spent, listing state expenditures by agency and type of expenditure in each county and for the 24 council of governments regions. The introduction explains the estimation method, presents detail of the state's expenditures by major category and object code, and identifies expenditure trends across major expense categories.

This document was created using information from the state's Uniform Statewide Accounting System. The report reflects actual net expenditures of funds from accounts held in the State Treasury during the 2014 fiscal year, Sept. 1, 2013 through Aug. 31, 2014. For certain expenditures, the Comptroller's office used information provided by individual state agencies to estimate their distributions to counties.

You may access the report online at the Comptroller's Texas Transparency website at [http://www.texastransparency.org/State\\_Finance/Budget\\_Finance/Reports/Expenditures\\_by\\_County/](http://www.texastransparency.org/State_Finance/Budget_Finance/Reports/Expenditures_by_County/). Please let us know if we can be of further assistance.

I hope this information is helpful.

Sincerely,

A handwritten signature in black ink that reads "Glenn Hegar". The signature is fluid and cursive, with "Glenn" on top and "Hegar" below it, both starting with a capital letter.

# Texas State Expenditures by County 2014

## Introduction

*Texas State Expenditures by County 2014* continues the annual reporting of state agency spending by county begun in 1991, when the General Appropriations Act first required the Texas Comptroller of Public Accounts to prepare these reports.

Section I contains a summary of net expenditures by county for major spending categories; a summary and ranking of net expenditures by county; and a table of detailed state expenditures by county. Section II presents similar information by council of governments region. In both sections, some expenditures are listed as “unallocable” to Texas counties. Unallocable expenditures include payments to out-of-state and foreign vendors and payments that cannot be assigned to a specific county.

This report lists state agencies under each county and planning region in numerical order by their assigned agency code. For reference, this report includes an alphabetical list of state agencies in Section I-A. A map of Texas counties and a list of counties by state planning region are in Section II-A.

This report includes only net expenditures as reflected in the Uniform Statewide Accounting System (USAS). Net expenditures include purchases of goods and services made from accounts held by the Comptroller of Public Accounts’ Treasury Operations, those in the state’s General Revenue Fund and from all special funds and trust funds. This report does not include

funds maintained outside the Treasury Operations accounting system or funds held by universities in local banks. Net expenditures in this report exclude purchases of investments; some payments from trust or suspense accounts, such as allocations of local sales taxes to cities, counties and transit authorities; benefit payments to retired teachers and state employees; and all types of interfund transfers and repayments of debt principal.

The report presents net expenditures made from a cash accounting system during fiscal 2014, from Sept. 1, 2013 to Aug. 31, 2014. Accrued expenses and encumbrances to counties continue to improve with each reporting period; therefore, the data in this report may not be consistent with data in reports from prior years.

In some cases, an expenditure category may include a negative amount. This may indicate a payment made in a previous fiscal year that has been partially or wholly refunded or may reflect a minor processing error that was corrected. Due to rounding, some category totals listed in the introduction’s Major Spending Categories table may not match totals in the Summary of County Expenditures.

## Major Spending Categories

The tables in this report list state expenditures in major categories that parallel those used in the *2014 Annual Cash Report*.

*Intergovernmental Payments* include grants to colleges, schools and local governments; distribution of

Foundation School Program funds to school districts; public school textbooks; and allocations of mixed beverage taxes to cities and counties.

*Labor Costs* are salaries, wages, employee benefits payments, travel expenses and fees for professional consultant services. Also included is the state's share of retirement contributions on behalf of state employees and public school teachers.

*Public Assistance* includes payments for Temporary Assistance for Needy Families (TANF), Medicaid, grants in aid, child support and similar state services.

*Highway Construction* includes purchases of highway rights-of-way and the expenses of constructing the state's roads and bridges.

*Operating Expenses* are supplies, maintenance, utilities, rentals, leases, printing and non-capitalized equipment.

*Capital Outlay* expenditures include aircraft, computer equipment, land and buildings, major improvements to state property, motor vehicles and capitalized purchases of furniture and equipment.

*Miscellaneous* includes all other expenditures, such as court costs, fees, interest on debt, lottery payments and payment of claims and judgments.

## Overview of Changes in Major Categories of Expenditure: 2004-2014

Texas state government expenditures by county totaled a net \$112.4 billion in fiscal 2014, a change of 62.4 percent from \$69.2 billion in fiscal 2004. During this period, the seven major categories of expenditure grew at varied rates.

Public assistance expenditures led all categories in both dollar amount and percentage of total net expenditures in both fiscal 2004 and 2014. These expenditures totaled \$25.7 billion of the \$69.2 billion spent in fiscal 2004 (37.1 percent), increasing 79.8 percent to \$46.2 billion out of a total of \$112.4 billion in fiscal 2014 (41.1 percent). Medical services and specialties (\$21.4 billion) and unemployment payments (\$2.8 billion) made up the bulk of these expenditures in fiscal 2014.

The second-largest category was intergovernmental payments, which comprised 25.7 percent (about \$28.9 billion) of total net expenditures in fiscal 2014. Labor costs were the third-largest category, at \$23.3 billion, followed by miscellaneous expenses (\$5.3 billion), highway construction (\$5.3 billion), operating expenses (\$2.8 billion) and capital outlays (\$504 million).

The tables and charts below illustrate the growth in expenditures by major category between 2004 and 2014.

## Adjustments to the Uniform Statewide Accounting System

Most of the data in this report comes from the Uniform Statewide Accounting System (USAS). The Comptroller's office uses USAS, a computerized accounting system, to control and report all Texas state government expenditures. In several instances, differences between the accounting system's requirements and the need for an accurate report of state expenditures by county required the Comptroller's office to adjust the distribution of state expenditures to counties.

The Comptroller's office draws expenditure data from USAS in the form of vouchers submitted by state agencies for payment of goods and services. Vouchers, which cite the legal authority for the payment, result in state checks or warrants — either an electronic transfer or a check — to the vendors of the goods or services. Vendors may be businesses, government entities, individuals or organizations.

The distribution of most state expenditures among counties relies on a computerized file with the name and mailing address of each vendor. Designed to track accounting transactions, USAS does not identify the location of expenditures. A vendor's address might not accurately indicate where the purchased goods or services were delivered or performed.

The Comptroller's office adjusts the underlying USAS data for large expenditure categories which, if not reallocated, would misrepresent the distribution of state funds to counties. With USAS, certain major expenditures, such as state employee benefit payments or public assistance, may appear to be made only in Travis County because it is the headquarters for most state agencies. These payments, including expenditures for insurance, retirement contributions and Social Security, are adjusted in this report.

The Comptroller's office reallocates unemployment compensation benefits to former state employees and insurance payments for current employees based on a percentage of state employees in each county. Employee retirement and Social Security payments are allocated through a ratio of state employee salaries by county and

by agency using USAS data. State contributions to the Teacher Retirement System are allocated to counties based on where payments to retirees from the system trust fund were made.

Each year, the Comptroller's office uses information from selected state agencies to adjust the data for this report. For fiscal 2014, the Attorney General's office provided a list of its distribution of child support payments made to recipients in and out of state. The Department of Aging and Disability Services provided data by county for payments made for long-term care nursing facilities and hospice care; Title XX Long Term Care/Non-Medicaid Services; and Intermediate Care Facilities/Mental Retardation. The Department of Criminal Justice provided a list of vendors for each state-operated facility, with amounts paid to out-of-state vendors. The Comptroller's office adjusted the Department of State Health Services' payments for the Special Supplemental Food Program for Women, Infants and Children using a statewide distribution of the program's client population. Data collected from the Health and Human Services Commission (HHSC) for Medicaid clients by county were used to adjust fee-for-service and managed-care Medicaid expenditures. HHSC provided payment data by county for Temporary Assistance for Needy Families and the Medicaid Vendor Drug Program to make a proportional distribution by county.

The Comptroller's office collected additional expenditure data from the Texas Education Agency (TEA) on school textbooks and allowable purchases from school districts' allotments. TEA also supplied intergovernmental payments data on grants for elementary and secondary schools and school apportionment (the Foundation School Program). Senate Bill 6, enacted by the Texas Legislature in 2011, established the Instructional Materials Fund (IMF) using monies from the distribution of the Permanent School Fund. A school district is entitled to receive an annual instructional materials allotment (IMA) from the IMF for each enrolled student. The allotment may be used to purchase adopted and non-adopted instructional materials, technological equipment

and technology-related services. For adopted instructional materials, TEA pays the publisher on the district's behalf using its IMA (expenditure object 7383 report). For non-adopted instructional materials, technology services and technological equipment, the district must request a disbursement of funds to acquire the products or services. Upon TEA approval, the funds are sent directly to the district (expenditure object 7601 report).

The Texas Department of Transportation provided information on highway construction, maintenance and right-of-way purchases to more accurately allocate expenditures to the counties in which the construction was performed. The Veterans Land Board at the Texas General Land Office provided expenditure data on counties receiving housing assistance and home improvement program funds. The Texas Workforce Commission supplied fiscal 2014 unemployment insurance benefit data by county that includes federal unemployment benefits.

Expenditures not allocated to specific counties are categorized as "Expenditures Unallocable to Texas Counties." Transactions placed into this category in fiscal 2014 include expenditures for object codes/categories:

- 7001-7048, Salaries and Wages;
- 7209, Lottery Winnings-Installment;
- 7253, Other Professional Services;
- 7275, Computer Programming Services;
- 7292, DIR Payments to Statewide Technology Center;
- 7299, Purchased Contracted Services;
- 7312, Medical Supplies;
- 7664, Supplementary Medical Insurance Benefits;
- 7801, Interest on Governmental Fiduciary Long-Term Debt;
- 7802, Interest-Other;
- 7829, Disburse Medicaid Incentive Transfer-State (UPL);
- 7830, Disbursement of Disproportionate Share Funds to State Hospitals; and
- 7832, State Hospital Payments of State Matching Disproportionate Share Funds and Upper Payment Limit Funds.

In some cases, smaller objects of expenditure that have not been redistributed may be reflected in the county where payment was made, not in the county where the goods or services were delivered or performed.

The objects of expenditure comprising each of the major spending categories are:

INTERGOVERNMENTAL PAYMENTS		
		2014 Expenditures
7383	Textbooks for Public Free Schools	\$ 186,705,637
